MD. RAKIBUL ISLAM MONY

IT SUPPORT EXECUTIVE

Location: Ashkona, Dakshinkhan, Dhaka-1230 | **Phone:** +8801785376239, +8801987975108 | **Email:** rakibulislammony123@gmail.com | **LinkedIn:** linkedin.com/in/rakibulmony

PROFESSIONAL SUMMARY

Results-driven, certified **IT Support Executive** with over 3 years of progressive hands-on experience in managing enterprise IT infrastructure, technical support operations, LAN/WAN networking, and system administration. Expert in resolving Tier-1 to Tier-3 technical incidents, maintaining system uptime, and providing high-availability network support for mission-critical operations, including high-profile public sector clients like the Dhaka Metropolitan Police (DMP). Skilled in Active Directory concepts, routing & switching, hardware maintenance, server management, and SLA compliance. Recognized for driving system optimization, reducing downtime to less than 0.2%, and providing exceptional client technical support across complex environments.

TECHNICAL SKILLS & CORE COMPETENCIES

IT Support & Systems:	Desktop/Laptop Troubleshooting, Windows Server Administration, OS Deployment & Formatting, Hardware Assembly & Maintenance, Software Configuration, Peripheral Troubleshooting
Networking & Infrastructure:	LAN/WAN Setup & Optimization, Routing & Switching, TCP/IP, Subnetting, Network Security, MikroTik (MTCNA Concepts), Firewall Configuration, Fiber Network Monitoring
Tools & Monitoring:	Network Monitoring Tools (PRTG/Ping Tools), Router & Switch Administration, Helpdesk Ticketing Systems, Call Center Software, MS Office Suite, Asset Management Tools
Operations & Best Practices:	ITIL Service Management Concepts, SLA Management, Incident & Ticket Resolution, Escalation Handling, Client Communication, Vendor Management, Team Leadership

PROFESSIONAL EXPERIENCE

IT Support Executive (Formerly Junior IT Executive)

Aug 2025 – Present

F.S Business Corporation Ltd.

Uttara, Dhaka

KEY RESPONSIBILITIES

- **Infrastructure Operations Management:** Direct day-to-day enterprise IT infrastructure operations, overseeing overall server stability, LAN/WAN uptime, operating system deployments, and hardware upgrades for 100+ end-users.
- **Network & Security Administration:** Configure, manage, and troubleshoot core network switches, routers, and firewall policies to guarantee stable high-speed connectivity and enterprise data security.
- **Helpdesk & User Incident Resolution:** Lead technical support initiatives, managing Tier-1/2 ticket queues, diagnosing software/hardware issues, and ensuring strict compliance with Service Level Agreements (SLAs).
- **IT Asset & Preventative Maintenance:** Conduct regular audits of hardware inventory, monitor equipment lifecycles, and perform scheduled preventative maintenance to extend machine longevity and avoid sudden failures.
- **Vendor & Systems Coordination:** Collaborate with third-party vendors and ISPs to escalate and resolve complex technical faults, ensuring uninterrupted enterprise operations.

KEY ACHIEVEMENTS

- **Downtime Optimization:** Reduced overall system technical downtime by 20% through structured preventative maintenance routines and automated incident resolution workflows.
- **Cost Efficiency & Inventory Management:** Streamlined hardware troubleshooting workflows and asset tracking logs, saving approximately 15% in annual IT equipment maintenance costs.

Technical Support Engineer

Feb 2024 – Jul 2025

BracNet Limited

Mohakhali, Dhaka

KEY RESPONSIBILITIES

- **Tier-2/3 Network Incident Management:** Delivered high-level technical support to corporate clients, diagnosing complex ISP link drops, packet loss, routing anomalies, and underlying hardware faults.
- **Custom Network Infrastructure Deployment:** Designed, engineered, and deployed tailored LAN/WAN infrastructures from scratch for new corporate clients, ensuring 100% network stability from Day 1.
- **Client Engagement & SLA Compliance:** Interfaced directly with corporate IT heads and clients to resolve high-priority network outages within strict Service Level Agreements (SLAs).
- **Performance Auditing & Bandwidth Optimization:** Partnered with field engineering teams to conduct network audits, optimize bandwidth allocation, and resolve fiber physical link issues.

KEY ACHIEVEMENTS

- **Mission-Critical Government Project:** Successfully managed and maintained critical fiber network connectivity for the **Dhaka Metropolitan Police (DMP)**, achieving zero major service outages during critical operational periods.
- **System Performance & KPI Enhancement:** Implemented real-time network monitoring protocols that boosted client network uptime to 99.8% and reduced average ticket resolution time by 25%.

KEY PROJECTS & OPERATIONAL IMPACT

- **High-Density Office Network Deployment:** Planned and deployed end-to-end structured cabling, switch provisioning, and router setups for high-density office environments supporting 100+ active devices reliably.
- **High-Availability Support for DMP:** Recognized by senior management for maintaining high-priority connectivity for public safety operations under strict time-sensitive requirements.
- **Helpdesk Process Optimization:** Re-structured internal incident escalation pathways, reducing overall user waiting times for critical technical support tickets.

PROFESSIONAL CERTIFICATIONS & TRAINING

CCNA (Cisco Certified Network Associate)	e-Learning and Earning Project, Dhaka	Oct 2024
NSDA IT Support Level 3	National Skills Development Authority, Bangladesh	Jul 2026
MTCNA Concepts Training (MikroTik)	Concept Training Program	2024

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)	Northern University Bangladesh (NUB)	Ongoing
Diploma in Computer Engineering	Naogaon Polytechnic Institute (First Division)	Graduated: 2024

PERSONAL DETAILS & LANGUAGES

Father's Name: Md. Nazrul Islam

Mother's Name: Mst. Rehena Khanom

Permanent Address: Aguniatair, Sonatola, Bogura

Marital Status: Married

Languages: Bangla (Native), English (Professional Working)
